Slingshot SV and Digital NEST Forge Partnership to Encourage Our Youth to Find Their Passions and Teach Them How to Turn them Into A Successful Career Path at The Entrepreneurship Summer Series Next Week.

Scotts Valley, California -- (BUSINESS WIRE) — Slingshot SV and Digital NEST announced a collaboration today that teams the safe and learning-focused workspace for young people, DigitalNest with the entrepreneurship, business incubation and business acceleration tools and mentors of Slingshot SV. Slingshot SV will be hosting a Entrepreneurship Summer Series next week at the Digital NEST location.

Digital NEST provides youth and young adults ages 12-24 with free access to computers, software, Wi-Fi, and a full range of state-of-the-art digital tools and classes. Modeled after successful tech companies that inspire creativity and innovation, Digital NEST is a safe and learning-focused workspace for young people. Through training, collaboration, and professional mentorship, young people master the technological skills they need to pursue higher education, launch careers, and join businesses in our community.

Slingshot SV is partnering with Digital NEST to guide our youth to find their true passions in life and help them realize their limitless possibilities doing what they love. They offer the tools, resources, guidance, and mentorship to develop a successful business model. The week long Entrepreneurship Summer Series aims to influence and motivate the youth to become an entrepreneur by covering the following:

- Finding and following your passion
- Why should I start my own business?
- What is your business idea?
- How to do market research and overcome challenges and fears?
- Ethics, Integrity and Honesty
- Importance of Networking
- Create and Executive Summary
- Pitch your idea to local investors

The collaboration will be built based on the distinct strengths of each company: Slingshot SV's entrepreneurship skills, with the power of skill set development of our youth within the Digital

About Slingshot SV
